

TRUfill™

**The revolutionary dispense technology
that fills from the bottom up.**

Profits & Productivity

- 1 Person, 4 Pints, 10 Seconds, without holding the cup
- Productivity improvement for single server of 400%
- Increases Profit by 370% allowing for cup cost
- Maximizes sales in limited time periods
- Single server can pour four servings simultaneously
- Improved yield due to server not holding the cup during dispense
- TRUfill reduces the labor in product dispense

Unique & Revolutionary

- No operator training required
- TRUfill system self pours to produce perfect pints
- TRUfill increases repeatability of product presentation in the cup
- TRUfill improves product quality

Simple & Smooth

- Simply slide the cup into position and wait for the perfect refreshing pint... Don't worry you won't be waiting too long!

Innovation & Differentiation

- Dispensing from the bottom up is the most innovative way to truly guarantee that brand owners can differentiate their product from the competition.

TRUfill™

The next generation of beverage dispense has begun...
